Arnd Langguth joins GenKey

Eindhoven, the Netherlands (January 5, 2012),

Today GenKey announced that Arnd Langguth has joined the company as Director Sales. Before joining GenKey, Arnd was Vice President of Sales for EMEA, Asia & Pacific at Cross Match Technologies and, prior to that, Technical Manager OEM Relations at ActivIDentity. Arnd brings extensive knowledge and expertise in the field of biometrics and security solutions. "I am very excited to join this dedicated team", says Arnd Langguth, "I believe that GenKey's BioHASH®-based technology is the key building block for all biometric ID projects that require privacy, speed and security".

"I am very happy that we can welcome Arnd in our team", says Michiel van der Veen, CEO of GenKey, "with his strong technical and sales background we can further strengthen our international activities".

GenKey is an international IT company with offices in the Netherlands, Africa, India and US. GenKey offers solutions for biometric ID systems with a focus on biometric enrollment, large-scale biometric de-duplication and biometric verification. The GenKey's BioHASH® solutions comply with ISO standard 24745 for Biometric Template Protection providing benefits for ultra-high speed of matching and intrinsically secure and low-cost storage on, for example, RFID or barcodes.
